

**Exhibitor Map to
Navigate
Entering/Parking
for CONVO 2026**

The Civic Center is currently under construction which impacts entrance to the building. The skywalk from the two hotels is open. You can also walk along the street as shown above. See [video tutorials](#) if you would like a visual.

Exhibitors Loading/Unloading:

- **All exhibitors are encouraged to enter through the loading dock for ease of entering and getting supplies into the building.**
- The loading dock off of N. William Kumpf Blvd. **You cannot park here** it is a load/unload zone only.
****If you have large items and need to use the loading dock, you must be unloaded prior to 10 am.** The food trucks will be moving in at 9, and it will be unavailable for exhibitors.
- If you have small items and carry in through one of the other doors, they will be subject to search. It is a windy path from the hotel parking garage/skywalk or Fulton lot to the Tradeshow space, so we recommend you bring a cart or small wagon to help move items if you choose not to use the loading dock.

See [Video Tutorials](#) to help you visualize the path to the Tradeshow from the Pere/Courtyard using the skywalk and/or street.

Parking

- Marquee Parking lot is closest to the main entrance for the event.
- Fulton Parking lot is other option, between Monroe & Fulton streets.
- For guests staying at Pere/Courtyard, use the parking deck attached.
- For guests staying at the Staybridge, it has a large lot, and can accommodate oversized vehicles too.

Clear Bag Policy: The Civic Center has implemented a clear bag policy. All attendees and exhibitors will be subject to search. See the [FAQ section](#) of the website for full details.
